

Publications

Sangmoon Park, Benjamin L. Clark, Douglas A. Keszler, Jeffry Bender, John F. Wager, and Gregory Herman, “Low-Temperature Thin-Film Deposition and Crystallization”, *Science*, 297, 65(2002).

Sangmoon Park, Douglas A. Keszler, Melinda Valencia, Randy Hoffmann, Jeffrey P. Bender and John F. Wager, “Transparent ptype conducting BaCu₂S₂ films”, *Appl. Phys. Lett.*, **80(23)**, 4393 (2002).

Sangmoon Park and Douglas A. Keszler “Cation Ordering in Langasite Structure types”, *Solid-State Science*, **4(6)**, 799 (2002).

Sangmoon Park and Douglas A. Keszler, “Synthesis of 3R-CuMO_{2+?} (M = Ga, Sc, In)”, *J. Solid State Chem.*, submitted.

Sangmoon Park, Alexandre Yokochi, and Douglas A. Keszler, “The structure and luminescence properties of Yttrium Chloroorthosilicate, Y₃(SiO₄)₂Cl”, *MRS.*, submitted.

Sangmoon Park, Gregory S. Herman, and Douglas A. Keszler, “Oxide films: low-temperature deposition and crystallization”, *J. Solid State Chem.*, submitted.

Hiroshi. Yanagi, Sangmoon Park, Andrew D. Draeseke, Douglas A. Keszler, and Janet Tate, “p-type conductivity in transparent oxides and sulfide fluorides”, *J. Solid State Chem.*, submitted.

Hiroshi Yanagi, Janet Tate, Sangmoon Park, Cheol-Hee Park, and Douglas A. Keszler, “p-type conductivity in wide band-gap BaCuQF (Q = S, Se)”, *Appl. Phys. Lett.*, submitted.

Sang Joon Choe, Sang Moon Park, Dong Ho Park, Do Sung Huh, “Comparison of adsorption properties of adsorbates on Pt(111) and Pt(111)/?-Al₂O₃ surface in the ethylene hydrogenation reaction: MO theory”, *Bulletin of the Korean Chemical Society*, **19(7)**, 733 (1998).

Sang Joon Choe, Sang Moon Park, Dong Ho Park, Do Sung Huh, “Molecular orbital study of binding at the Pt(111)/?-Al₂O₃(111) interface”, *J. Korean Chem. Soc.*, **40(4)**, 264 (1996).
